- ✓ Optimised for multiple devices – PC, Mac, tablets and phones
- ✓ Office applications: Outlook, Word, Excel, PowerPoint, OneNote, Publisher
- ✓ Services: Exchange, OneDrive, SharePoint, Skype for Business, Microsoft Teams, Yammer
- ✓ Web versions of Outlook, Word, Excel and PowerPoint

EXPERIENCE THE BENEFITS OF A COMPLETE OFFICE IN THE CLOUD

ACCESS WORK ON THE GO

Give your staff the tools they need to exchange emails, share and work on documents together, have online meetings and send instant messages no matter where they may be - at the office or on the go.

WORK BETTER TOGETHER

Your teams can work together in real time using best-in-class productivity tools. Office 365 offers business-class email, shared calendars, instant messaging, web conferencing and access to the most up to date documents stored in the cloud.

ALWAYS UP TO DATE

Office 365 is always up to date. Microsoft regularly adds new features and updates, constantly adding new value to the service. Patches and software updates are automatically applied as part of the service with no requirement for customer involvement.

WORK SECURELY

All content and information is safely stored in Microsoft's data centres with world-class infrastructure and security, continuous backup and disaster recovery abilities. Your data is automatically encrypted when stored or travelling over the network.

REDUCE CAPITAL EXPENDITURE

Avoid large upfront costs for new software by moving to a subscription-based model. Everything you need for Office 365 is included in a predictable, easy-to-manage, per-user monthly fee.

SIMPLIFY HOW YOU WORK

Instead of struggling with multiple applications and working across different platforms, give your people all the tools they need in one solution. Microsoft Office 365 has all the features and capabilities your staff needs to work productively - email, calendar, files, IM, online meetings, document sharing and more - all in the cloud, all secure, all up to date.

GCOMM MAKES OFFICE 365 EASY FOR YOU
