

CISCO WEBEX BOARD™

All-in-one collaboration device

Everything you need to collaborate with your teams in physical meeting rooms delivered in one extraordinary device. Wirelessly present, white board, video and audio conference, and annotate on shared content. Use any Cisco Webex-enabled device to connect virtual teams for a state-of-the-art meeting experience. The Cisco Webex Board™ solution offers an integrated, secure, and comprehensive lifecycle approach to teamwork to revolutionise the way you work.

All-in-one device for team collaboration

CLOUD COLLABORATION

The Cisco Webex Board is powered by the Cisco Webex service, which means your spaces and contacts are available as soon as you enter the room. As soon as you're finished with your meeting, you can review your annotations, notes and white boards from any connected device. The Webex Board draws updates from the Cisco Collaboration cloud, so it is always operating with the latest software - no manual upgrades or maintenance required.

INTELLIGENCE, STYLE, VERSATILITY

The Webex Board's intelligent proximity technology wakes the board when you enter the room with a Cisco Webex Teams enabled device, allowing you to start a meeting, white board, or share screens immediately. Bring intelligence, style and versatility to any collaboration space.

EMPOWERED COMMUNICATIONS

The Cisco Webex Board has set a new standard for premium business collaboration. Why not expect the same simplicity and power from your business communication tools as the social tools you use everyday?

HARDWARE FEATURE HIGHLIGHTS

✓ INTELLIGENT VIEWS

- Powerful 4K camera captures high-resolution image of virtually the entire room
- Intelligent software algorithms enable automatic framing for best overview, which provides ideal framing to the far end of the room

✓ INTELLIGENT AUDIO

- Built-in 12-microphone array amplifies sound quality – as if a microphone has been extended to each speaker
- Automatically modulates the active speaker so that clear audio is delivered, whether the speaker is close to or far away from the Webex Board

✓ INTELLIGENT PROXIMITY

- Webex Board automatically wakes up when it detects a Webex Teams user enter the room and suggests an activity to choose from.

✓ DIGITAL WHITEBOARD

- Easily white board with the Cisco Webex Pen or your finger on the Cisco Webex Board and automatically save content to a Cisco Webex Teams space
- Annotate on screen share

✓ INDUSTRIAL DESIGN

- Discreet built-in 4K camera is unimposing, to help users feel comfortable when close to the screen
- Built-in microphones and wireless sharing add to the clean, no-wire aesthetics
- High-resolution 4K screen shows detailed content beautifully

✓ **TURN CUSTOMERS INTO ADVOCATES**
Personalise customer relationships and build trust by meeting face-to-face, even from different locations and time zones.

✓ **DELIVER A TOTAL CUSTOMER EXPERIENCE**
Provide customers with a broader range of services, faster response times and better results through instant, visual connections with customer service, subject-matter experts, and decision makers.

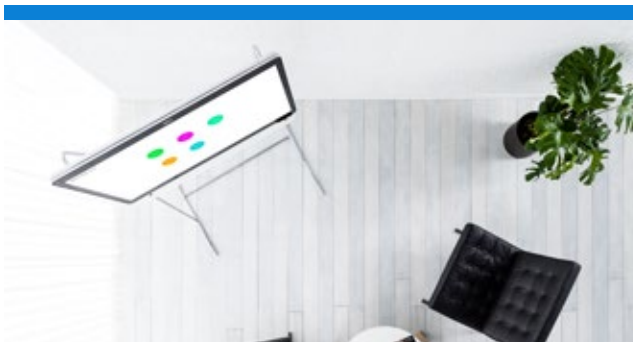

✓ **CREATE FLEXIBLE WORK AREAS**
Collaboration is fundamental to employee engagement. Improve communications, relationships and employee productivity by giving them access to resources wherever they are.

✓ **INCREASE PRODUCTIVITY IN THE MODERN WORKPLACE**
Many organisations today have dispersed workplaces with remote, mobile and travelling employees. Employees need powerful collaboration tools which support flexibility and deliver effective communications to increase productivity.

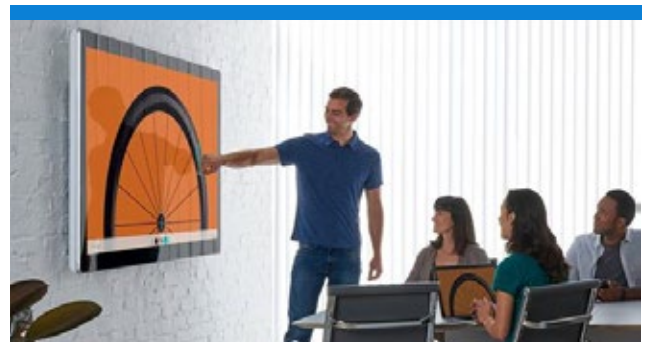

✓ **CONTROL COSTS WITH COLLABORATION TECHNOLOGY.**
Cut costs for complex and geographically dispersed projects by allowing team members to collaborate, face-to-face, from any location. A simple subscription model with no out-of-pocket maintenance required helps your business control costs.

Choose from the
Webex Board 55 and **Webex Board 70**
for the optimal device for your collaboration space.
