GIVE YOUR TEAM THE TOOLS THEY NEED TO WORK EFFECTIVELY FROM ANYWHERE, ANYTIME

GCOMM Cloud Workspace is a cloud-deployed work environment, which means your users can get to work from any device, using any internet connection. Users always have access to the same systems and are always secure, even if they are not connected to the corporate network. Built into the service is the Cisco security stack including Cisco Umbrella Secure Internet Gateway, AMP for Endpoints and Email Filtering to provide the widest range of protection for your business and users. Using Office 365, familiar tools are available where and when you need them.

COVERING ALL THE BASES

GCOMM Cloud Workspace has been designed with premium technology and best practises in mind.

✓ ENTERPRISE INFRASTRUCTURE

- Guaranteed performance. GCOMM manage infrastructure resourcing to always ensure a robust environment with an SLA of 99.9%+ uptime.
- Scale to increase users and meet business needs as they arise.
- Our infrastructure is built on best-of-breed Cisco and Hitachi hardware hosted in Equinix data centres.

✓ PROFESSIONAL IT SERVICE

- Highly trained IT professionals support all users in the virtual workspace.
- Complete professional support for your O365 environment.
- Reduce costs associated with downtime and inefficiencies with proactive maintenance.

✓ CENTRALISED MANAGEMENT

- The Cloud Workspace service is device independent - access your virtual workspace on any device, from any location.
- Data centralisation means that if a device is lost or stolen, your data remains safe.*
- Identity access management.

✓ ENTERPRISE SECURITY

- Full Cisco security stack included - Secure Internet Gateway, AMP for Endpoints and Email Filtering.
- Centralised cloud deployments restrict your attack surface.
- GCOMM IT professionals proactively ensure all systems are always up-to-date for a hardened environment.

**Supporting security policies required*

WHY GCOMM CLOUD WORKSPACE?

Cloud Workspace is a versatile solution which can be used to address various scenarios that your business may be faced with.

YOUR BUSINESS...	SOLUTION
<p>Has no internal IT team</p> 	<p>Without an IT team, making informed decisions about your technology investments and maintaining those systems can be daunting. GCOMM Cloud Workspace is fully managed by our team of IT professionals, so you never have to worry if everything is up to scratch.</p>
<p>Is rapidly expanding</p> 	<p>In times of growth, you should be focusing on moving your business forward, not worrying how you will keep up with increasing IT requirements. GCOMM Cloud Workspace is rapidly deployed on robust cloud infrastructure. In times of growth and expansion, add desktop users and expand your environment quickly and easily.</p>
<p>Has outdated workstations due for replacement</p> 	<p>Avoid heavy opex costs to replace outdated workstations with expensive new equipment. GCOMM Cloud Workspace allows you to control your finances with a monthly subscription model. GCOMM always keeps the service up-to-date with the latest technology so you feel confident knowing your investments are secure and supported.</p>
<p>Has many sites and remote workers, or users who travel frequently</p> 	<p>When your organisation has many locations and remote users to manage, it becomes hard to enforce policies and give people the right tools at the right time. Central cloud management of the organisation's virtual workspace gives visibility and control over all user profiles, and gives users the ability to work from any location, on any device, picking up right where they leave off.</p>

KEY SERVICE FEATURES
